3rd Surgical-Anatomical Hernia Symposium 2017
as Precourse I of the 9th ISCAA World Congress,
Innsbruck, Tyrol, Austria

Groin Anatomy – Surgical Techniques –
Nerve Management

07th - 8th September 2017

Anatomical Theatre – Dissection Room –
Operating Rooms of the University Hospital

Symposium Chairs:
Univ.-Ass. Dr. Marko Konschake
Univ.-Prof. Dr. Thomas Schmid
Hernia operations are among the most frequent surgical interventions. In Austria about 20,000 patients have to undergo hernia surgery every year.

While formerly the quality of the operation was assessed according to the recurrence, today postoperative chronic pain remains the major problem.

In this theoretical and practical course we intend, after a detailed anatomical inspection of the inguinal region and its important nerves, to demonstrate the different surgical techniques, focusing attention on the intraoperative nerve management.

The course will be held by the Department of Visceral, Thoracic and Transplantation and Surgery and the Division of Clinical and Functional Anatomy of the Medical University of Innsbruck.

For organizational reasons the course is limited to a maximum of 40 participants.

We are looking forward to seeing you at our course in Innsbruck.

Univ.-Prof. Dr. Thomas Schmid  Univ.-Ass. Dr. Marko Konschake
Surgery  Anatomy
THURSDAY, 07.09.2017

11.30 - 12.30  Registration
(Division of Clinical and Functional Anatomy, Müllerstr. 59.
6020 Innsbruck)

12.30 - 14.00  Anatomy
12.30 - 12.45  Welcome
T. Schmid, M. Konschake, Innsbruck
12.45 - 13.15  Surgical Anatomy of the Inguinal Canal with Live
Demonstrations performed on Anatomical Specimens
M. Konschake, Innsbruck
13.15 - 13.45  Ultrasound-Guided demonstration of the Inguinal Nerves on
probands
B. Moriggl, Innsbruck
13.45 - 14.00  Discussion

14.00 - 15.20  Surgery
14.00 - 14.20  Intraoperative Demonstration of the Inguinal Nerves, Hernia
Repair by TEP
T. Schmid, Innsbruck
14.20 - 14.40  Hernia Repair by TAPP, including the Management of the
Inguinal Nerves
R. Fortelny, Vienna
14.40 - 15.00  Hernia Repair by Lichtenstein technique, including the
Management of the Inguinal Nerves
R. Függer, Linz
15.00 - 15.20  Discussion

15.20 - 16.40  Pain Management
15.20 - 15.40  Postoperative Chronic Groin Pain, Incidence – Prophylaxis –
Therapy
H. Pokorny, Mödling
15.40 - 16.00  Triple-Neurectomy
G. Köhler, Linz
16.00 - 16.40  Discussion

16.40 - 17.10  Coffee Break
17.10 - 18.30  Dissecting Room/Practical Exercises on Anatomical
Specimens
FRIDAY, 08.09.2017

08:00-13:00

Operating Rooms at the University Clinic of Visceral, Transplantation and Thoracic Surgery
Live Operations (Lichtenstein, TEP, TAPP, Triple-Neurectomy-Video)

13.00  End of Course

Registration Fee precourse I only: €490.-
Full congress participation of ISCAA 2017 including precourse I:
€700.- independent from registration date!
Registration deadline 27.08.2017

Account No.: IBAN: AT21 3600 0000 0073 8245
             BIC: RZTIAT22
             Recipient: “Hernia Symposium,
                          Precourse of 9th ISCAA Congress”

Please register informally at the Secretariat of the University Clinic for Visceral, Transplantation and Thoracic Surgery by
E-Mail to: birgit.heuschneider@tirol-kliniken.at, (Fax: +43-512-504-22577) or
via the Congress Homepage: www.iscaa-innsbruck2017.com

For the participation in this event 14 DFP-Points will be awarded by the Austrian Medical Chamber.
